

ROCKY MOUNTAIN PENETR_X

www.rockymountainpenetrx.com

Our proprietary solutions are Carbon Free, Eco-Friendly, and contain ZERO VOC's. They will not harm plants or animals. Penetrx treatments are the most natural improvement you can make to your stucco, rock & brick surfaces.

Protects stucco, rock & brick surfaces from freeze/thaw damage, brutal UV deterioration, salts, acid rain and other pollutants by

Penetrates deep inside your masonry surfaces. This results in significantly increased compressive, tensile, and flexural strength as measured by methods used in tests such as: ASTM C109 and ASTM C348 Resistance to wind-driven rain and sleet is enhanced as measured by methods used in: ASTM E514 Chemical resistance to salts and deicers, acids, petroleum products and other pollutants is significantly increased as measured by methods used in tests such as: ASTM D1308

Preserves your stucco home from further damage by "Mother Nature". Our Lithium Stucco Seal is designed to penetrate both surface and micro-cracking. With anti-microbial properties, it inhibits the growth of molds and algae's upon contact.

Saves you money on heating and air conditioning cost by significantly increasing:

1. **Reflectivity Coefficient** of the stucco- resulting in a reduced amount of Light & Heat Energy absorbed.
2. **Emissivity Coefficient**- increasing the ability to radiate heat from your stucco.
3. **"R" Factor**- further insulating your home from heat in the summer, and cold in the winter.

Decreases the permeability of stucco, making it more energy efficient and weather-resistant.

Protect your home investment from the elements of deterioration. Avoid costly repairs in the future by acting now.

Would you spend a **Nickel** to **Save Many Dollars**?
